WELCOME TO EXTRUDE SOLUTIONS

Today, we respond very quickly to the needs of our wider community and industries. Our diverse client base now includes, the transportation industry, construction and agricultural industries. We will continue to work with our local community and these industries and provide innovative and effective solutions in our production and provision of service.

Our keys to success:

- Providing a professional quality service on time and on budget.
- Working honestly by developing a follow-up strategy to gauge performance and build trust with all our clients.
- Developing an end to end engineering product and services capability.
- Working closely with our customers and providing a transparent line of communication.
- We strive for excellence in client relationships and provision of services.
- We undertake projects in a manner that provides value to our clients at all times trying to exceed their expectations.

To reach our objectives we plan, implement and control systems which facilitate the management of quality on our projects by implementing the following principals:

- Comply with all relevant statutory and contractual obligations.
- Conform to recognized standards.
- Maintain excellent communications with clients.
- Continually improve our services through review of our goals and objectives.
- Continually improve the skills and competencies of our workforce.

ABOUT EXTRUDE

EXTRUDE SOLUTIONS was established in 2007 by a young corper with the dream to service the Nigerian steel manufacturing and construction market. The company specializes in all aspects of steel fabrication and in the construction of pre-engineered steel structural projects. Its work encompasses all types of steel construction, buildings steelwork, Cladding, Roofing, Fabrication, Designing, piping systems, bins, tanks and pressure vessels.

Our site construction capabilities equip us to address structural steel rehabilitation, and to provide structural failure rapid response (design, rebuild and commission). EXTRUDE SOLUTIONS ensures quality through superior management and control systems, developed on the job by our high performance team, which has years of technical and practical experience. The skills and experience of our people, from Top Management, to crew members, have been combined to create a cohesive, smoothly functioning team, guided by good communication and our personal pride in our work.

We take an engineering approach to every project, instituting the right systems and technology to ensure quality and cost efficiency. Attention to coordination, control and scheduling helps to minimize waste and maximize output.

Our capabilities range from engineering design (Civil, Structural, Mechanical, Electrical, Control and Instrumentation) and project management, through to steel fabrication and erection, mechanical installation, civil construction and electrical and instrumentation installation. These capabilities enable the company to handle a complete project or any portion thereof.

OBJECTIVES

- Deliver services on time, in budget and to required quality standards
- Establish long term relationship with the client
- Implement an effective quality assurance system
- Grow business through excellent service
- Comply with all safety act and regulations

OUR MISSION

To remain a modern provider of Construction and Maintenance services, using the latest technologies and offering technologically innovative designs and solutions to achieve highest level of work quality and excellent services while maximising returns to clients/stakeholders.

MISSION

OUR VISION

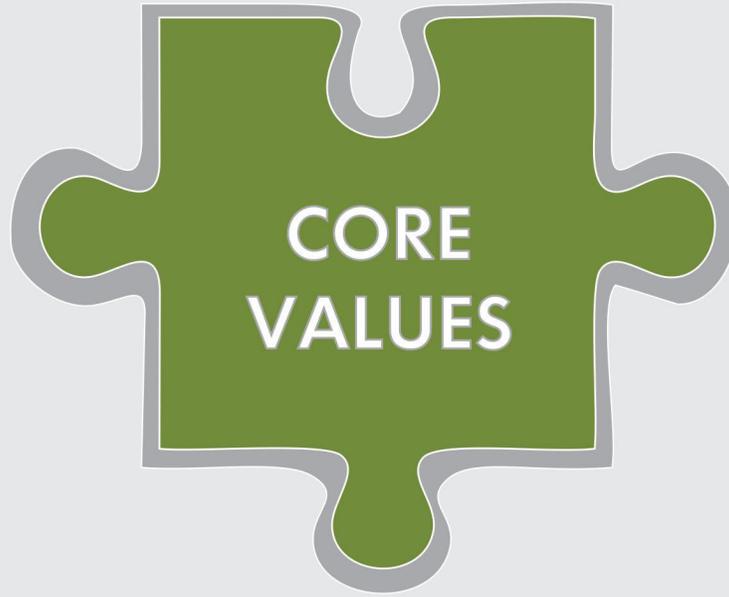

To be at the forefront of Engineering, Maintenance and Construction in Nigeria.

VISION

Integrity

Professionalism

Safety

Innovation

SAFETY STATEMENT

At EXTRUDE our Occupational Health and Safety Policy is based on the belief that the wellbeing of our people at work, or people affected by our work, is the highest priority and must be considered during all work performed.

Our staff are our most important asset and their health and safety is our greatest responsibility.

The management of EXTRUDE is totally committed to providing and maintaining a safe and healthy working environment.

Our health and safety policies are the documented principles, objectives, obligations and commitments that guide our decision making within our business.

ENVIRONMENTAL STATEMENT

EXTRUDE is committed to minimising the impact on the environment as a result of our working activities. We will strive for continual improvement in this area so that we minimise our impact on the community and other groups who may be affected by our work.

EXTRUDE will carry out all activities in a manner that provides consideration of the environment and the health and wellbeing of those involved.

We will cooperate with relevant authorities and clients to meet statutory and contractual requirements.

At EXTRUDE every individual is responsible for providing a healthy, safe and environmentally clean work place.

SERVICE OVERVIEW

D

EXTRUDE SOLUTIONS is equipped to do a variety of engineering design work, this includes;

- Equipment specifications, design, selection and inspection
- Computer-based mechanical, structural, civil, electrical, control and instrumentation design, 3D modelling.
- Cost-effective plant layout, with due consideration to maintenance requirements and access.

F

EXTRUDE SOLUTIONS is one of the industry providers of structure, piping solutions, storage tanks and vessels for the oil and gas, and power generation industries. Our team is made up of highly experienced and skilled personnel who can expertly streamline even the most complex project from concept to delivery. EXTRUDE SOLUTIONS brings qualified manpower, extensive knowledge and professional project management all of which allows us to maximize the cost effectiveness of our custom fabrication solutions.

C

EXTRUDE SOLUTIONS' commitment to its customers begins with a vast background in construction and erection. The emphasis in the fabrication and construction business is commercial and industrial construction.

M

Project Management for EXTRUDE SOLUTIONS includes managing capital, maintaining improvement projects, project planning and resource scheduling, preparing budgets, accurate project costing and feasibility studies, as well as implementing projects, while ensuring all processes and procedures comply with statutory requirements. The focus on total quality project management ensures complete client satisfaction.
